Education

Faculty of Computers and Information.

- Bachelor of Science in Computer Science.

- Expected: 2027

Focusing on Software Engineering principles, Data Structures, and Mobile Computing.

Tanta University, Tanta, Egypt.

Certificates

Flutter Diploma at

Route Academy [Website](#)

Route Certificate [Certificate](#)

May 2024 – Sep 2024

Nasr City, Cairo

Professional Summary

Mid-Level Flutter Developer & Mobile Developer with **2+ years** shipping production-grade iOS and Android apps. Specialized in **enterprise ERP integration** (REST + JSON-RPC + XML-RPC), **bilingual Arabic/English RTL** experiences, **multi-tenant SaaS architectures**, **AI-feature integration**, and **location-aware workflows with offline-first sync**. Expert in **Clean Architecture**, **SOLID**, **Bloc/Cubit**, **go_router**, and **get_it**. **Delivers Sentry observability**, **R8/ProGuard obfuscation**, and signed releases on **iOS** (Apple App Store) and **Android** (Google Play). Strong **Agile/Scrum** collaborator.

Professional Experience

Mid-Level Mobile App Developer Riyadh, Saudi Arabia **Apr 2026 – Present**

Digital Harbor | Golden Odoo Partner [Website](#) **Remote**

- Shipped AI Rajhi Hajj** to App Store + Google Play — bilingual Odoo-backed platform serving pilgrim and supervisor roles in a single binary.
- Built Saqqar Mobile** — AI Odoo companion with Whisper voice transcription, share intent (WhatsApp/Files), encrypted credential vault, and inline approval workflows.
- Delivered Customer Visits** — field-sales GPS tracker with battery-aware live tracking (5m filter + 2-min heartbeat), offline auto-sync, and an Odoo 19 manager dashboard.
- Architected HR Multi-tenant Companion** — single-binary app where each company binds to its own Odoo 18 server via Clean Architecture, SafeCubit, and hybrid Bearer + cookie auth.
- Standardized observability + bilingual delivery** — Sentry crash reporting (with noise filtering), R8/ProGuard obfuscation, and Arabic-first RTL with Cairo typography across all releases.

Mobile App Developer Riyadh, Saudi Arabia **Jun 2025 – Jan 2026**

New Touch for Business Solutions Company [Website](#) **Remote**

- Engineered cross-platform mobile apps** using Clean Architecture and SOLID principles, cutting technical debt by 15% across Agile/Scrum sprints.
- Shipped OTP-based authentication** and role-based flows for 3 user types (Clients, Owners, Agents) with 100% data authorization accuracy.
- Built advanced property listing** with dynamic filtering (+20% search relevance) and seller dashboards with real-time sync (+25% vendor efficiency).
- Integrated Firebase Push Notifications** and real-time updates, boosting daily active users (DAU) by 10%

Mobile App Developer Cairo, Egypt **Mar 2024 – May 2025**

Green Line Company [Website](#) **Remote**

- Built a real-estate property management platform** with OTP-based authentication for high-traffic listings and lead flows.
- Shipped real-time booking and service-tracking flows** for a car-maintenance app — cut manual booking errors 30% via backend integration.
- Shipped e-commerce checkout** with integrated payment gateways (Stripe + PayMob) optimized for production-scale latency.
- Tuned UI/UX and runtime performance** across releases — 90+ scores on internal performance metrics.

Technical Skills

- **Core Development:** C++, Dart, Flutter (Cross-platform), OOP, SOLID Principles, Clean Code.
- **Architecture:** Clean Architecture, MVVM, Feature-First, get_it (DI), Repository Pattern, go_router.
- **Patterns:** Design Patterns, Data Structures & Algorithms.
- **State Management:** Riverpod, Provider, Bloc, Cubit, GetX.
- **Backend & API Integration:** Odoo 18/19 (ERP), RESTful APIs, JSON-RPC, XML-RPC, Dio, (Postman, Swagger), Firebase, Supabase.
- **Security & Auth:** OTP-based Login, Authentication & Authorization Systems, Bearer + Cookie Hybrid Auth, Secure Storage (Keychain/Keystore).
- **Tools:** Git, GitHub, CI/CD, Figma, Trello (Project Management), Sentry, R8/ProGuard, Play Console, App Store Connect.
- **Optimization & UX:** Local Storage, Localization & RTL, Responsive UI Design, Performance Optimization.
- **Advanced Integrations:** Stripe, PayMob, Google Maps, OpenStreetMap, geolocator (GPS), Whisper Voice, Share Intent, QR/NFC, Push Notifications.
- **Real-Time Communications:** Video & Voice Call (VideoSDK, Zego Cloud)
- **Methodologies:** Agile Development, Problem Solving, Debugging.
- **Testing:** Unit Testing, Integration Testing, Widget Testing.

Personal Skills

- Analytical Thinking
- Technical Communication
- Team Collaboration
- Continuous Learning
- Cross-functional Collaboration
- Multitasking & Task Prioritization

Languages

Arabic: Native Speaker.

English: Professional Working Proficiency (B2-C1)

Projects

1. Al Rajhi Hajj | Pilgrimage Services Platform — [\[App Store\]](#) [\[Google Play\]](#)

- **Concept:** Bilingual (Arabic/English) Hajj services platform for Al Rajhi pilgrims and supervisors, covering the full Hajj journey end-to-end.
- **Tech:** Flutter, GetX, Odoo ERP (REST + XML-RPC), Firebase, Dio.
- **Core Task:**
 - Shipped to **iOS App Store + Google Play** with two distinct roles (pilgrims + supervisors with QR/NFC) in a single binary.
 - Integrated Odoo ERP backend for applications, pilgrim records, and supervisor workflows.
 - Delivered bilingual UX with Hijri + Gregorian calendars and full RTL/LTR experience.

2. Saqqar Mobile | AI Copilot for Odoo ERP — [\[Review On Google Play\]](#)

- **Concept:** Native mobile companion to saqqaar.com — an AI agent that operates Odoo ERP via natural language.
- **Tech:** Flutter, Bloc/Cubit, go_router, Dio, Odoo (REST + XML-RPC), Sentry.
- **Core Task:**
 - AI agent with server-side Whisper voice transcription (Arabic + English code-switch).
 - Share intent from WhatsApp/Photos/Files, encrypted on-device credential vault, and inline approval workflows.
 - Bilingual with full RTL, Sentry observability, and dart-defined release pipeline.

3. HR Multi-tenant Companion | Odoo HR Self-Service

- **Concept:** Bilingual Arabic-first HR self-service app for Odoo 18 — multi-tenant by design; each company binds to its own Odoo server on first launch.
- **Tech:** Flutter 3.35, Bloc/Cubit, get_it (DI), Dio, Odoo 18 (REST), Sentry, Clean Architecture.
- **Core Task:**
 - Single-binary multi-tenant design — one app on the store, each company on its own Odoo server URL.
 - Six self-service flows: Dashboard, Geo-Attendance, Time-off, Payslips, Approvals, Directory.
 - Hybrid Bearer + session-cookie auth; SafeCubit base class to prevent emit-after-close memory leaks.

4. Customer Visits | Field-Sales GPS Tracker

- **Concept:** Production field-sales companion — reps check-in/out at customer locations with GPS verification with live manager dashboard.
- **Tech:** Flutter, Bloc/Cubit, go_router, Dio, Odoo 19, OpenStreetMap, geolocator.
- **Core Task:**
 - Battery-aware live foreground tracking (5m distance filter + 2-min heartbeat) with auto-stop on background.
 - Offline queue with auto-sync when network returns — zero data loss on connectivity drops.
 - Manager dashboard with KPIs + Nearby Employees view (within 10m radius, refreshed every 10 seconds).

5. FortyNine | 49-in-1 Super App — [\[App Store\]](#) [\[Google Play\]](#)

- **Concept:** Super-app bundling 49+ services in one platform — social feed, doctor booking, delivery, marketplace, video/Reels, and chat.
- **Tech:** Flutter, Firebase, Bloc, modular architecture, REST APIs.
- **Core Task:**
 - Contributed to modules across social feed, chat, video/Reels, and booking flows.
 - Live on both iOS and Android serving multiple consumer verticals.
 - Modular architecture with strict ownership.
